PROFESSIONAL SUMMARY

Senior UX and Interactive Designer with **10+ years of experience** designing complex digital products across enterprise AI, DevOps, analytics, and healthcare-regulated environments. Proven ability to go beyond static UI — creating immersive, interactive experiences and modular content systems that engage across multiple formats and platforms. Deep expertise in design systems, accessibility (WCAG 2.1 AA & Section 508 certified), and cross-functional collaboration across global teams. Healthcare domain experience includes delivering HIPAA-compliant digital applications for Tenet Healthcare, UnitedHealth Group, and Optum. Award-winning designer (Hermes International Gold, 2018) with a consistent record of translating complex requirements into engaging, compliant, and scalable interactive experiences.

ORGANIZATIONAL EXPERIENCE

Senior UX Designer Nov 2023 – Present
OpenText · Hyderabad, India · Enterprise DevOps & AI Products

- Own end-to-end UX design for an AI-powered automated testing suite — translating complex ML workflows into progressive, step-by-step experiences with clear human/AI decision attribution.
- Contributed to an evolving & scalable design system with reusable component libraries and design tokens, enabling consistent interactive patterns across product modules.
- Align interactive designs while balancing technical constraints with user and business needs, collaborating with product managers, engineering leads, and QA stakeholders throughout delivery.
- Ran accessibility heuristic reviews against WCAG 2.1 AA criteria, flagging and redesigning non-compliant components across data-heavy dashboards and dynamic content areas.
- Produce interactive prototypes and annotated user flows for usability testing sessions; facilitate AI-driven UX ideation workshops (Tank it or Bank it) to validate product concepts with cross-functional teams.

KEY ACHIEVEMENTS

- Led redesign of a legacy enterprise testing platform — restructuring IA, interaction flows, and component architecture, improving SUS score from 52 to 86.
- Drove 85% reduction in test setup time and 60% faster test cycles through UX redesign of the AI-assisted configuration and execution flow.
- Reduced manual test retries by 40% by designing a transparent AI execution plan review step that built user trust and reduced error-driven interruptions.

Designer 2 — UX/UI & Interactive Apr 2020 – Aug 2023
Deloitte India · Enterprise SaaS · Life Sciences & Technology Clients

- Led UX and interactive design for **ChangeScout**, a proprietary change management SaaS platform — creating modular content components, interactive multi-step workflows, and responsive layouts within established brand frameworks.
- Designed complex interactive experiences within **Salesforce Lightning**, balancing platform constraints with intuitive interaction patterns for global enterprise users.
- Contributed to a component-based design system with documented interaction states and reusable assets, standardising patterns across cross-functional teams.
- Ran usability testing and stakeholder research sessions to validate design decisions; iterated rapidly across content formats in an Agile environment.
- Collaborated with global teams across business, technology, and Life Sciences consulting clients — regularly presenting interactive design rationale to senior stakeholders.

SKILLS & TOOLS

UX & Interaction Design

- User Research
- Usability Testing
- Interaction Design
- Information Architecture
- Wireframing & Prototyping
- Visual Storytelling
- Heuristic Evaluation
- Immersive UX
- Interactive Storytelling
- Responsive Design
- Modular Content Systems
- Design Systems

Tools

- Figma
- Adobe Illustrator
- Adobe Photoshop
- Adobe XD
- HTML5 / CSS

AI & Emerging Practice

- AI-Powered Product Design
- Human-Centered AI Workflows
- AI Ideation Facilitation

Accessibility & Compliance

- WCAG 2.1 AA
- Section 508
- HIPAA-Compliant Design
- Accessibility Audits

Platforms & Collaboration

- Salesforce Lightning (SLDS)
- DevOps & QA Platforms
- Analytics Dashboards
- SaaS Products
- Stakeholder Facilitation
- Agile / Scrum
- Design QA
- Global Team Collaboration

IoT Application UI/UX · PurpleTalk · 2018

You've Got Spark Award

PurpleTalk · August 2017

ORGANIZATIONAL EXPERIENCE (CONTINUED)

UI/UX Designer 2

Sep 2018 – Apr 2020

InRhythm Solutions · Enterprise Analytics & Mobile Products

- Led UX design for **MobileMetrics**, an enterprise analytics product — designing data-heavy interactive dashboards with clear visual hierarchy for non-technical stakeholders.
- Created interactive wireframes and high-fidelity prototypes for analytics visualisation features; collaborated daily with developers in Agile sprints to ensure accurate interactive implementation.
- Designed modular, reusable interface components and responsive layouts adaptable across device breakpoints.

UI/UX Designer

May 2015 – Aug 2018

PurpleTalk · Healthcare, Life Sciences & IoT · Mobile & Web

- Designed **HIPAA-compliant applications and websites** for **Tenet Healthcare, UnitedHealth Group (UHG), and Optum** — covering patient portals, clinical workflows, and provider-facing tools within strictly regulated environments.
- Ensured full **Section 508 compliance** across all healthcare deliverables, applying accessibility standards pragmatically without compromising interaction quality.
- Designed an IoT application combining device interaction, animated states, and immersive visual storytelling — won the **Hermes International Design Award 2018 (Gold Category)**.
- Delivered end-to-end interactive experiences for mobile and web products across multiple client verticals, balancing creative direction with compliance and technical constraints throughout.

UI Design Intern

Dec 2014 – May 2015

PurpleTalk

- Supported front-end UI development and visual design using HTML5 and CSS in production-grade web interfaces.

EDUCATION

B.Tech, Information Technology

2011 – 2015

Jawaharlal Nehru Technological University, Hyderabad

Intermediate (M.P.C.)

2009 – 2011

Sri Chaitanya College of Education
